

Participation in Local Christmas Lights Parades

Beaver Municipal Solutions participated in two parades this past weekend. Friday evening, our decorated truck, wove through the streets of Viking, thrilling the throngs of onlookers. Thomas Welink and Jeanie DeGrande along with her daughter, Lexi, handed candy canes and the popular green reusable bags to excited children of all ages along the parade route. Brian Rempel expertly guided the truck through the streets, with Santa waving to the crowd. From the truck, Anne Ruzicka also waved to the bundled folk lining the parade route. Near the end of the route, the fog started to roll in, making the whole evening very magical.

On Saturday, Brian Rempel maneuvered the decorated truck through the streets of Tofield. Anne Ruzicka handed out candy canes and reusable bags to the excited parade onlookers. Although much cooler than the previous evening, one would never know it, with the excited buzz of the crowd who came out to watch the parade and rock to the Christmas tunes.

Beaver Municipal Solutions is proud to be able to participate in these community events and help bring a little joy to the Christmas season.

New PA System for Holden Lodge

The Holden Lodge Club 44 was the recipient of a Beaver Municipal Solutions' community grant to be able to purchase a new PA system for their facility. This system is able to help both staff and residents when holding events in their community room. Bingo callers can now be clearly heard. Guest speakers and entertainers are now able to easily project to everyone in the room.

Funds for this purchase were provided by Beaver Municipal Solutions Community Grant Program. The 2018 Cycle 2 has now closed and awards will be made later this month. If your local not-for profit community group has an event or activity that could benefit from financial support from Beaver Municipal Solutions' grant program, please contact our office for more information. The next deadline will be May 31, 2019, with the new form available in January.
